What is REAL Connections?

REAL Connections is designed to make life less complicated and more fulfilling. It is based on the notion that even as we age, we want to remain in our homes and communities, enjoying vibrant, independent lives by staying connected with neighbors and having convenient access to a trusted “go-to” resource for information, valued services, a vetted provider network, an more — all with one phone call or email.

Who can participate?

- ⊗ REAL Connections membership is created especially for those age 50+ who live and work in the Inland, Pomona and San Gabriel Valleys.
- ⊗ But anyone can participate! Regardless of age or lifestyle, REAL Connections has something for everyone. There's no such thing as “not ready yet,” to be a member or get involved.
- ⊗ We welcome people of all ages to volunteer and invite local organizations to join us in serving our older adult community.

Real Life. Real Choice.

“I look forward to knowing that I won't need to bother my daughter for every silly little thing. I can simply pick up the phone and get trusted resources and information, as well as referrals for pre-screened service providers who will give me discounts already negotiated on my behalf. It will truly give me peace of mind!”

“I have great confidence that this new community program will provide much needed benefits, in addition to services provided by Community Senior Services already being enjoyed by our aging citizens. For many years I have supported the idea of enabling people to stay in their own homes; I'm very happy to see this concept finally coming to fruition. We are fortunate to be living in an area that is offering this membership.”
